Part I

We volunteered showing our demo in class on December 8th, 2020. Besides, we scheduled and completed another demo with our mentor IA, Rennah Weng, at 11 am EST on December 9th, 2020.

During the demo, Rennah gave us reasonable recommendation which helps us to improve our application. Rennah suggested us to validate the input phone number, split the creation and update function in different view and check invalid input information in the UI.
